Approach

- Following the official Microsoft exam objectives for 70-535, numbered from 1 to 6

- Underneath that, I have named the topics covered by the objective

- The first week is about learning Objectives 1 completely. That's 20-25% of the exam in week 1.

- The second week is about learning Objectives 2 and 3 completely. That's 50-65% covered by week 2.

- The third week is about learning Objectives 4 and 5 completely. That's 80-90% covered by week 3.

- The fourth week is about Objective 6. More practice with Azure, and ensuring 100% coverage.

- The fifth week is for redoing any assignments, taking practice tests, going over what you learned. Gaining confidence.

- And the sixth week is when you take the test.

70-535 Objectives

Objective 1.0 - Design Compute Infrastructure (20-25%)

- Virtual Machines
- Serverless Computing
- Microservices
- Web Apps
- Compute-Intensive Application

Objective 2.0 - Design Data Implementation (15-20%)

- Azure Storage
- Azure Data Services
- Relational Database Storage
- NoSQL Storage
- CosmosDB Storage

Objective 3.0 - Design Networking Implementation (15-20%)

- Virtual Networks
- VPNs and Expressroute
- Security Strategies
- Hybrid Applications

Objective 4.0 - Design Security and Identity Solutions (20-25%)

- Identity
- Secure Resources
- Data Security
- Governance
- Security Risks

Objective 5.0 - Design Solutions by using Platform Services (10-15%)

- Artificial Intelligence
- IoT
- Messaging
- Media Services

Objective 6.0 - Design for Operations (10-15%)

- Application Monitoring
- Platform Monitoring
- Operations Automation

Sample

	Day 1	Day 2	Day 3	Day 4	Day 5	Day 6	Day 7
Week 1 *Sep 3, 2018*	Create test acct Virtual Machines Serverless Microservices	Web Apps Compute-Intensive 30 mins practice	Azure Storage Data Services Relational DB 30 mins practice	NoSQL CosmosDB 30 mins practice	Quiz 30 mins practice	Assignment 45 mins practice	Day off Rest
Week 2 *Sep 10, 2018*	Virtual Networks VPNs 30 mins practice	Network Sec Hybrid Network 30 mins practice	Secure Resources Data Security 30 mins practice	Identity 30 mins practice	Governance Security Risks 30 mins practice	Assignment 45 mins practice	Day off Rest
Week 3 *Sep 17, 2018*	Artificial Intelligence IoT 30 mins practice	Messaging 30 mins practice	Media Services 30 mins practice	Application Monitoring & Alerts 30 mins practice	Platform Monitoring & Alerts 30 mins practice	Assignment 45 mins practice	Day off Rest
Week 4 *Sep 24, 2018*	Operations Automation 30 mins practice	Take Practice Tests 30 mins practice	60 mins practice Review previous quizzes	60 mins practice	Review Objective 1 30 mins practice	100 mins practice	Day off Rest
Week 5 *Oct 1, 2018*	Review Objective 2 30 mins practice	Review Objective 3 30 mins practice	Review Objective 4 30 mins practice	Review Objective 5 30 mins practice	Review Objective 6 30 mins practice	Review Weak Areas	Day off Rest
Week 6 *Oct 8, 2018*	Review Weak Areas	Review Quizzes	Test Date
